Note 1: During out-of-state Emergency Management Assistance Compact (EMAC) requests at the Type I and Type II levels, the request will automatically include a 25% contingent of EMD certified telecommunicators. TERT State Coordinators are responsible for identifying such members. A multi-state response may be requires to fill this requirement.  Note 2: EMD certification is not a requirement for TERT team membership. However, if a requesting agency specifies that they wish to have EMD qualified TERT members respond, the TERT State Coordinator should make every effort to fulfill the request by identifying EMD qualified team members.  Additional information on the TERT is found in the National Joint TERT Initiative document Model Recommendations for
